

WORLD CONGRESS ON CANCER RESEARCH & THERAPY

Sep09-11, 2019 at Rome, Italy

Scientific Program - WCCRT 2019

Title: Expression of PD-L1 in tumor-associated nerves correlates with reduced CD8+ tumor-associated lymphocytes and poor prognosis in prostate cancer

Wei-De Zhong, South China University of Technology, China

Title: Understanding High-Risk Biology from Genomic Analysis in Multiple Myeloma

Anjan Thakurta, Myeloma Disease Lead, Celgene Corporation, USA

Title: Clinical evolution and findings in bi-rads 3 lesions at the Hospital Alta Resolución Ecija. Spain

Jack Antonio Díaz Brito, General Surgery Department Hospital Alta Resolución Ecija, Spain

Title: The role of SPARC expression in breast cancer progression and docetaxel chemosensitivity

Maria Aparecida Nagai, Universidade de São Paulo, Brazil

Title: Potential SIRT7 inhibitors – from virtual screening to in vivo research

M. Hałasa, Medical University of Lublin, Poland

Title: Programmatic Description: The Peter Gilgan Centre for Women's Cancers

Ruth Heisey, Womens College Hospital, Canada

Title: Visfatin stimulates adipose-derived stem cells to promote the growth and malignant behavior of breast cancer cells

Shyng-Shiou F. Yuan, Kaohsiung Medical University, Kaohsiung, Taiwan

Title: Epidemiology of Nasopharyngeal carcinoma in Nagaland, India

Vinotsole Khamo, Healthcare Laboratory and Research Centre, Nagaland, India

Title: A high-throughput integrated microfluidics method enables tyrosine Phosphorylation and autophosphorylation discovery

Doron Gerber, Bar Ilan University, Israel

Title: Knowledge, Attitudes and Practices of Women in the Southern Region of Saudi Arabia Regarding Cervical Cancer and the Pap Smear Test

Enas A Dhaher, Armed Forces Hospital in The Southern Region of Saudi Arabia

Title: Dynamic mutational spectra of UVC-induced DNA damage formation and mutagenesis in gpt delta mouse embryonic fibroblast cell line under the conduction of conventional selected and high-resolution unselected mutational strategies

Pennapa Thongararm, Chulabhorn Graduate Institute, Thailand

Title: Expression of PD-L1 in tumor-associated nerves correlates with reduced CD8+ tumor-associated lymphocytes and poor prognosis in prostate cancer

Wei-De Zhong, South China University of Technology, China

Title: Breast Cancer Epigenetic Subtypes Identified by Genome-Wide DNA Methylation

Vladimir Strelnikov, Research Centre for Medical Genetics, Moscow, Russia

Title: TBA

Decaudin Didier, Institut Curie France, France

Title: Latest advancements in Cancer Research and Treatment

Joanna Kruk-Bachonko, Medical University of Lublin, Poland

Title: TBA

Ahlam Hosny Mahmoud, NRC, Dokki, Cairo, Egypt.

Speaker Slot Available

Title: Application of the Z-scan technique for the detection of CFCDNA (cell-free circulating DNA) and urine DNA (uDNA) in patients with bladder cancer (Video Presentation)

Maira Lavalhegas Hallack, Medical University of ABC, Brazil

Title: Exploring mechanisms of immune checkpoint regulation in environmental stressor-induced progression of melanoma (Video Presentation)

Ravi P. Sahu, Wright State University Boonshoft School of Medicine, USA

Title: Kidney Cancer and Pregnancy : latest results in diagnosis and management

Mohamed Yassine Binous, Tahar Sfar Hospital MAHDIA – TUNISIA

Speaker Slot Available

Poster Presentations

Title: MRE11 promotes oral cancer growth and metastasis through CXCR4 dependent signaling

Yen-Yun Wang, School of Dentistry, Taiwan

Title: MiRNA profile in medulloblastoma of adult and children

Dario de Biase, University of Bologna, Bologna, Italy

Title: Characterization of a Five MicroRNA Signature Predictive of Prostate Cancer Recurrence and Metastasis

Arun Seth, Sunnybrook Research Institute, Canada

Title: TBA

Robert Nam, University of Toronto, Canada

Title: Necroptosis is a programmed death pathway involving in functional and silent pituitary adenoma tumorigenesis

Alireza Sheikhi, Biochem Lab, Armenia

Title: Studying the chemical composition and anticancer mechanisms of Allium porrum in execution of Ehrlich ascites carcinoma in mice

Doaa Mohamed Salah Foda, National Research Centre. Egypt

For Available Slots Please Contact

Steve Michael, Program Manager
